Our police contact [REDACTED] was contacting the local construction sites to advise them of the activities in the area.

Whitegate Rent [REDACTED] has been paid.

10. **Bailiff Reports**

'PGR' confirms that water levels at Whitegate have dropped and are still a concern. 'PGR' supplied a detailed graph and rainfall chart to show the continuing problem. We are to continue monitoring and measuring the situation on a weekly basis. Andy Eaves our Fisheries Technical Officer is to go through our previous EA contacts records and report back to us. The matter will then proceed once all information is available.

11. **AOB**

The first electronic newsletter was issued to members who have supplied an e-mail address.

Bailiffs were asked when selling licences to get members to complete the e-mail details so as we can keep them informed on club activities.

12. **Guest Speaker**

Andy Eaves from the Environment Agency gave a presentation on encouraging youngsters into fishing, and the latest legal requirements necessary to conduct junior matches.

Members of the club are considering the possibility of Level 2 Coaching.

This will be discussed again at a future meeting, with the view of responding back to Andy no later than October 2007 with our options.
